3. (Confidential - JGO) Accompanied Lawrence Houston, OGC, to a meeting with Herb Roback and Charles Goodwin, House Government Operations Committee staff, concerning correspondence received by the Committee from Representative Robert Leggett (D., Calif.) relating to the complaints of Saturn and Overseas Airways concerning Southern Air Transport. It is Leggett's basic contention that the information furnished Chairman Nedzi, Intelligence Subcommittee of House Armed Services Committee, in a letter from John Maury dated 12 June is at variance with testimony given by Mr. Houston before the Civil Aeronautics Board and that the award of certain Air Force contracts which is scheduled in the next several days should be held up pending review of the matter by the General Accounting Office. After Mr. Houston's fairly detailed rundown of the current situation, Roback indicated that he will contact John Perry, of the Air Force, and GAO. He does not feel that this action of Leggett's will have much effect on either Perry or GAO and that the awards probably should be made on schedule. He asked if we could brief him later in the day on the discussions with Mr. Jones, of Representative Jack Brooks' (D., Tex.) staff, on the SAT sale.
